#### **Domestic Background (Family Situation):**

Justine became an Orphan after his parents died. His father died of HIV AIDS while on medication in 2013, he passed away leaving behind his wife, Justine and his younger brother. After two years Justin's mother died of the same disease (HIV AIDS) while on medication, she left behind Justine and his younger brother. Justine and his brother were left under the care of their grandmother who was totally unable to take care of the two children because she was so old (aged 80). She was unable to cook or go to the garden. Justine's grandfather and grandmother only had Justine's father and his aunt. Justin has no uncles or aunts on his fathers side left.

Justine was living a very bad life, until his only Aunt Liliann who is our full church member of Faith Works International Kissi Kenya brought him home to stay with them. Since moving in with them Justine is happy, can smile and can play with other children. Justin's Aunt Lilian has eight children who are also a burden to her and her husband, and she requested if Justine can be under our church care program. Justine became our church member immediately he was brought to stay with his Aunt.

Justine was brought to our care prayer list waiting for God's providence on 4<sup>th</sup> April 2016.
